HERPICIDE WILL SAVE IT HERPICIDE WILL SAVE IT TOO LATE FOR HERPICIDE

IS YOUR HAIR SLIPPING?

The presence of dandruff and falling hair conveys a warning which it is best to heed. At first the loss of hair may be so slight as to be hardly noticeable. But if it is not checked, it may be the fall of the hair, it is working toward the same and inevitable result, and that is total baldness.

You may have hair enough today, but how about tomorrow and the day after? Dandruff and falling hair mean baldness sooner or later and demand the immediate regular and energetic use of Newbro's Herpicide. It keeps the scalp free from dandruff and allows the hair to grow abundantly and naturally. By this means total incurable baldness may be prevented.

Herpicide does not stain or dye and has a most exquisite fragrance which makes it especially pleasing to the

ladies. It stops itching almost instantly.

You may be told that there are remedies "just as good as Herpicide." You cannot afford to take chances with nor can you expect to obtain results from "an off brand" article. Insist on having genuine Herpicide, the Original Germ-Remedy for Dandruff.

You can get a sample of this delightful hair dressing and a booklet on the care of the hair by sending ten cents in silver or postage to The Herpicide Co., Dept. S, Detroit, Mich. Try Herpicide once and you will never be without it.

Sold everywhere in 50 cent and \$1.00 sizes and guaranteed to give satisfaction or money refunded.

Applications obtained at the better barber shops and beauty parlors.

U. S. ARMY MULES WERE POISONED

German Agents at Buffalo Are Thought to Have Been Responsible for the Act.

Boston, April 21.—German agents are believed to have poisoned 10 government mules at Buffalo, N. Y., early this week when a trainload of horses and mules consigned from the remount station at Fort Sam Houston, Tex., to New York and Massachusetts regiments stopped in the freight yards there to feed and water the animals. An attempt to feed poisoned hay to animals for the 2d and 9th Massachusetts regiments when the train stopped at Albany, N. Y., Tuesday night, was foiled by the watchfulness of Simpson M. McCoy, civilian foreman of the U. S. Q. M. C., in charge of the train.

Army veterinary surgeons performed autopsies on the mules which died at Buffalo. They determined the animals had been fed hay drenched with croton oil. McCoy, who is a rugged westerner, brought the horses and mules of the 9th regiment into Boston Thursday. One mule consigned to the 9th was among those killed by eating the poisoned hay.

McCoy left Texas with a train of horses and mules for New York and Massachusetts regiments 10 days ago. He had 10 men under him. There was no sickness among the animals until the train reached Buffalo. There they were given feed and water. There was considerable delay in switching the long train from one railroad to the other and the train was in the yards for some time.

Just as it was about to leave Buffalo mules began to drop on the floors of the cars writhing in agony. When the attendants reached them many were dead. McCoy notified the railroad officials and hired a veterinary surgeon to investigate the circumstances of the animals' sickness and death. An army veterinary was also summoned from Fort Niagara, near Buffalo. The veterinarian held the train there while they performed autopsies on the dead animals. All agreed that the animals had died from eating hay sprinkled with croton oil. Secret service agents immediately began an investigation. Croton oil is used in medicine only in minute doses. At Albany Tuesday night two men ran alongside the train when it came to a halt in the freight yard. They carried bundles of hay which they held up for the animals to eat. McCoy, who was standing guard on the top of the train, ordered them away. They answered him with guttural oaths and continued their attempt to feed the horses and mules. McCoy jumped down from the train, whipped

out his army automatic pistol and leveled it at the two men. They turned and ran. Sgt. Edward McGrath of the 9th mounted orderlies took charge of the horses when they arrived in the Southampton street yards of the New Haven road early yesterday morning. They will be used for the mounted officers and men of the regiment. They will be quarantined in the animal hospital of the fire department near Southampton street. The mules for supply company and Machine Gun company were quarantined in the stable of the park and recreation department on Massachusetts avenue. Capt. Kenney, supply officer of the 9th, plans to establish a camp there for his company. The mounted orderlies were busy yesterday and to-day making the acquaintance of their new mounts and brushing up on equitation.

CONQUERS RHEUMATISM IN A VERY FEW DAYS

It is an established fact that one-half teaspoonful of Rheuma taken once a day has driven the pain and agony from thousands of racked, crippled and despairing rheumatics during the last five years.

Powerful and sure; quick setting, yet harmless; Rheuma gives blessed relief almost at once. The magic name has reached every hamlet in the land, and there is hardly a drugstore anywhere who cannot tell you of almost marvelous cures.

If you are tormented with rheumatism or, else, you can get a bottle of Rheuma from the Red Cross Pharmacy or any drugstore for not more than 50 cents, with the understanding that if it does not completely drive rheumatic poisons from your system—money back.—Adv.

CUTICURA HEALS BOY'S ITCHING RASH

Intense Itching and Burning Made Him Scratch. Skin Was Very Sore. He Would Lie Awake Fretting. Healed in One Month by Cuticura.

"When about one year old our boy's body began to be covered with a form of pimples which developed into a rash. It caused him a great deal of intense burning and itching which made him scratch and his clothing seemed to aggravate the breaking out. The skin was very sore, and he would lie awake nights fretting. His body was bare of skin in some places."

"I then purchased Cuticura Soap and Ointment. There was a great gain from the first application, and in a month he was healed." (Signed) Arthur W. Baglin, 44 Fairview St., Hartford, Conn.

A little care, a little patience, the use of Cuticura Soap and no other on the skin for every-day toilet purposes, with touches of Cuticura Ointment, now and then, to any pimples, rashes, redness, roughness or dandruff often means a clear, healthy skin, clean scalp and good hair through life.

For Free Sample Each by Return Mail address post-card: "Cuticura, Dept. R, Boston." Sold everywhere.

WILSON CAN SAVE IRISH HOME RULE

Declared J. Devlin, Acting Leader of Irish Parliamentary Party

PRESIDENT'S ACTION WOULD BE FINAL

Great Interest Is Being Felt in Lloyd George's Speech Next Month

London, April 21.—"President Wilson can obtain home rule for Ireland merely by saying the word."

National Member J. Devlin, acting leader since John Redmond's illness, so declared yesterday.

He explained if the president made it clear to England's leaders that a settlement of the Irish question was necessary to bring about whole-hearted American participation in the war the leaders would not fail to act on the suggestion.

"One evasion follows another in disheartening succession," Devlin said, "but there are signs that the government appreciates the effect of Americans asking themselves, 'How about Ireland?'"

"We have been led time and time again to think that a settlement of the Irish question would be granted—only to be put off once more."

"President Wilson's action would be final and positive in obtaining Ireland her home rule."

Supporting Devlin's hint that greater American participation might be obtained if the government would settle the Irish question, the tone of the British press for the past few days has been unusually strong in urging action by Lloyd George. Many newspapers are demanding immediate settlement on the ground that relations with America demand such a course and many of these newspapers have heretofore never exhibited any patience with the Irish Nationalists' plea.

The greatest interest is manifested in what Lloyd George may have to say next week about the Irish settlement, a statement being promised from him by Chancellor of the Exchequer Bonar Law.

MADE MILLIONS IN WHEAT.

Allied Governments Benefited By the Turn in Chicago Pit.

Chicago, April 21.—The allied governments, dealing through Chicago brokers, are credited to-day with having made a profit of more than \$3,500,000 in the last two months in "turns" on the grain market by changing from one option to the other.

This profit, it is said, was made by selling a line of July wheat and buying the September option at a price approximately 30 cents below the July option. Only a short time ago agents of the allies sold more than 2,000,000 bushels of May wheat in an endeavor to block the rise in price, and according to brokers, they made a large gain on the transaction.

Agents of the allied governments have bought wheat in anticipation of shipments of cash wheat, and thus have taken up about 15,000,000 bushels, according to brokers. They also have taken some 12,000,000 bushels of May and July corn and as much oats.

DENIES TEUTONIC INFLUENCE IN MEXICO

President of Lower House Says Neutrality Will Be Maintained.

Mexico City, April 21.—In answer to reports that Germany was endeavoring to influence members of the Mexican Congress to oppose Gen. Carranza's neutrality proclamation, Gen. Eduardo Hay, president of the lower house, has issued the following statement:

"I have no knowledge of German influence on members of Congress or of pressure for opposition to plans of neutrality. I acknowledge that in the galleries of Congress on Sunday there was a manifestation of sympathy for the German minister, but I immediately called the manifestants to order, telling them that any demonstration for or against any diplomat within the chamber was prohibited because we were obligated, in accordance with Gen. Carranza's policy, to preserve strict neutrality in spirit as well as in letter."

Gen. Hay said that in its present stage Congress was merely an electoral college and had no authority to deal with any international questions.

Opponents of Gen. Carranza claim that

SAXON SIX A Big Touring Car for Five People

You will note almost at once a definite difference between the performance of other cars of like price and the performance of a SAXON "SIX." It "idles" at a lower speed, accelerates faster, pulls with less labor up hills, and is far smoother and easier riding.

Make arrangements at once for demonstration with

B. W. Goodfellow 199 No. Main Street

YOU'RE AN EASY PREY, with your flesh reduced below a healthy standard, for Grip, Bronchitis, Consumption and other dangerous diseases. And it's for just this condition that Dr. Pierce's Golden Medical Discovery is especially valuable. If you're thinner than you ought to be, whether from wasting diseases, defective nutrition, or whatever cause, the "Discovery" will surely bring you up to the healthy standard. By restoring the normal action of the deranged organs and functions, it arouses every natural source and means of nourishment. A strength-restorer and flesh-builder. It can be had in tablet or liquid form. Ingredients printed on wrapper.

Killed by Poisons

All scientists agree that poisonous products in the blood are eliminated by the kidneys. The kidneys act as a kind of filter for these poisons. When the kidneys are changed or degenerated, by disease or old age, then these poisons are retained in the body. If we wish to prevent old age coming on too soon, or if we want to increase our chances for a long life, Dr. Pierce of the Invalids' Hotel, Buffalo, N. Y., says that you should drink plenty of water daily between meals and with your meals to flush the kidneys. Then procure at your nearest drug store Anuric. This Anuric drives the uric acid out.

If we wish to keep our kidneys in the best condition a diet of milk and vegetables, with only little meat once a day, is the most suitable. Drink plenty of pure water, take Anuric three times a day for a month. Anuric is many times more potent than lithia and dissolves uric acid as hot water does sugar.

Preliminary discussions and votes on credit in Congress show that the Constitutional Liberal party has not the overwhelming majority which was predicted. Copies of the announcement of Mexico's neutrality have been sent to all Central and South American countries and several replies have been received.

CALLS HALT ON PEACE TALK

Hamburg Paper Refers to Talk of Identity of Aims as Flap-doodle.

Amsterdam, via London, April 21.—A bitter attack on the advocates of a compromise with Russia and other peace propagandists is made by the Chauvinistic Hamburger Nachrichten. In an editorial which is headed "Masshalten!" which may be translated as "Easy, There!" The Nachrichten declaims against the discovery of what it terms the first sign of flabbiness.

After referring to mysterious Vienna dispatches about peace and Count Czernin's statement with reference to a conference of belligerents, the paper asks: "Why in the world these paeans of affection addressed to the provisional government at Petrograd? What is this talk about the identity of Russian and German aims; no annexations; nations living together in a peace honorable to both sides, and this flapdoodle about the excuse offered to Petrograd by the Norddeutsche Allgemeine Zeitung over our victory on the Skokhod?"

The Nachrichten adds: "These semi-official utterances are bound to arouse

Peruna, Only Remedy for Spring and All Other Ailments

I Have No More Pain, Don't Belch Up Gas, Can Eat Most Anything Without It Hurting Me. Gained Twenty-four Pounds.

Mrs. Wilson Robison, No. 744 Nesle St., Toledo, Ohio, writes: "I feel like a new person. I have no more heavy feelings, no more pain, don't belch up gas, can eat most anything without it hurting me. I want to be working all the time. I have gained twenty-four pounds. People that see me now and saw me two months ago seem astonished. I tell them Peruna did it. I will say it is the only remedy for spring and all other ailments."

Our booklet, telling you how to keep well, free to all. The Peruna Co., Columbus, Ohio.

Those who object to liquid medicines can now procure Peruna Tablets.—Adv.

uneasiness among the German people. Our war aims are very clearly defined in the east. An autonomous Poland is not sufficient. Courland must never return under Russian sway. The German people must ask the government what it means by identity of Russian and German aims."

The Nachrichten then cites the statement of The Vorwarts that Germany would not dare to return from a conference with an announcement that the war must continue, "because it could not carry through this or that annexation plan." It asks:

"What sort of talk is this? It is time that the government shows that it is conducting our foreign policy and not the Social democracy. The government should remember the Bismarckian saying, 'We run after nobody.' This is true to-day more than ever."

SOON READY FOR SEA.

Seized German Ships Are Being Put Into Shape.

Washington, April 21.—Vigorous steps are being taken by the government to make the seized German ships ready for

sea and also to prepare to take over ships being built for neutrals in American yards.

A bill to empower the shipping board to take foreign built craft on the ways and pay for them probably will be introduced in Congress next week. Nearly 1,200,000 tons now is building for foreign interests.

Nine of the seized German ships will be made ready for sea within the next 30 days, and others are to be hurried into condition.

Why Your Next Car Should be a Studebaker

IN THE FIRST PLACE, you will be SURE of its performance, for every Studebaker Car carries a 12-months' guarantee, a flat one-year insurance in addition to the convincing world-wide guarantee of quality that is given by the name STUDEBAKER itself.

In the second place, you will have a car of PROVED quality. For Studebaker quality—the result of Studebaker policy, Studebaker manufacturing resources and Studebaker engineering knowledge—is known all over the world.

The improvements, the many refinements of design, the practical perfection both of design and workmanship achieved by the continuous study of one basic Studebaker design in the hands of nearly 300,000 Studebaker owners in this country and abroad, have all combined to make the SERIES 18 Studebaker Car the one great VALUE car of the year.

The third reason why your next car should be a Studebaker is economy. From the standpoint of economy—what it costs to own and to run a car—Studebaker is, in the judgment of hundreds of thousands of people, the best buy on the market.

Its splendid quality insures lasting durability—and back of this lies the distinctive Studebaker ONE-YEAR guarantee. Its perfection of design insures GREAT power at the lowest possible consumption of gasoline—and back of this in the car itself there is built-in economy, the result of years of close study of a great army of Studebaker cars performing under every conceivable kind of service.

There is also to consider the actual saving of from \$300 to \$500 on the initial price, as compared with any other cars of equal quality—a saving made possible by the growing popularity of Studebaker cars and the resultant volume of manufacture.

Brief Details of Some of the Special Studebaker Features that Characterize Both the FOUR and the SIX

Power 40 horsepower in the FOUR, 50 horsepower in the SIX—and not merely "claimed horsepower" but actual, developed, usable road horsepower—such masterful power makes Studebaker cars unique in their price range. In ratio of horsepower to gasoline consumed, Studebaker is the most powerful car on the 1917 market. And only years of practical experience, years spent in watching the performance of Studebaker cars on every kind of road, have made this giant, yet economical power possible.

Comfort Both Studebaker Four and Six gave far more room than the average touring car. Studebaker offers a scientific perfection of cushion work that, combined with remarkable chassis balance and unusually resilient springs, make Studebaker cars unrivaled in riding-comfort and ease on long continued tours, as well as on short trips. The Studebaker cars, both the Four and the Six, are big, spacious 7-passenger cars, but do not weigh more than the average 5-passenger car, which means gasoline and TIRE economy as well. Studebaker front seats can be instantly adjusted to fit your particular needs. The right hand front seat of Studebaker cars is instantly and easily reversed—its occupant may face the tonneau at will.

Both Four and Six are fitted with auxiliary chairs that make them comfortable and spacious seven-passenger cars. When not in use they fold up and stow away under the rear seat—there are no unsightly gashes in the carpet or recesses in the front seats.

Roadability In perfecting the chassis, Studebaker has secured that one essential feature which is so important to touring—ROADABILITY. Through balance, spring suspension, proper wheelbase, scientific distribution of weight, ease of control, Studebaker has developed the most roadable cars on the market.

Finish The remarkable superiority of Studebaker coachwork is plainly evident in the beautiful, distinctive gun-metal finish with its ivory striping. Studebaker upholstery is of genuine highest grade, semi-glossed leather usually found only in the most expensive cars, and Studebaker uses in cushion work the best of real curled hair. The top is leather-bound. The carpet in the tonneau is leather-edged. Not a detail of finish is overlooked.

Other Specifications
Every Studebaker car is equipped with Blackmore patent door curtain openers. The side curtains open with the doors, making it as easy for you to get in and out of as a limousine.

Studebaker uses 13 Elmen Bearings in its design.

Besides all the foregoing, a Studebaker equipment includes real one-man top, Stewart-Warner magnetic Speedometer, Yale Lock on the Ignition Switch, Motor-Driven Sparrow Horn mounted under the hood, and a special adjustable rain-vision windshield that is built especially for Studebaker bodies.

Tires—on the Four, 34x4; on the Six, 35x4½.
